This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. J. EDWARDS, M.A.

SECOND MASTER, KING'S COLLEGE SCHOOL, LONDON; AND ONE OF THE CLASSICAL EXAMINERS TO CHRIST'S HOSPITAL.

BODLEIANA BIBLIOTHECA

LONDON:
JOHN W. PARKER AND SON, WEST STRAND.
MDCCCLII.

1855. 59*

PART THE FIRST.

EXERCISE I.

Muse.

TANGE vocales, studiosa, chordas
Musa, et auratum moderare plectrum;
Pauca de multis referamus actis
Regis amati.

EXERCISE II.

Virgin.

Ecce, in herboso spatiata campo
Stella, nunc Matris decus et voluptas,
Texit e solis violis coronam,
Cætera linquens.

EXERCISE III.

Cheerfulness.

I, puer; blandi comitem laboris
Affer a primâ citharam columnâ;
Affer et flores; procul omnis a me
Cura recedat.

EXERCISE IV.

Galatea.

Adsit ex imo Galatēa fundo,
Nil timens sævos Polyphemi amores;
Nec mihi durùm refluat canenti
Obstrepat unda.

EXERCISE V.

Faith.

O Fides! rarum placidumque numen;
O mihi nullis reticenda sæclis!
Tete in æternum prece victimisque
Pronus adorem.

EXERCISE VI.

Infant.

Parvulus matris gremio repôstus,
Nescius curæ, requiescit infans:
Ter, quater, felix! ita semper almus
Sit tibi somnus!

EXERCISE VII.

Mars.

Mavortis iram bellaque persequor
Horrenda: pelles ille adamantinas
Ferroque consertam rigenti
Induit, et chlamydem trilicem.

EXERCISE VIII.

Eurydice.

Heu! frustrà amatam concava littora
Rupesque et amnes Eurydicen sonant;
Evasit infelix marita,
Victima nil miserantis Orci!

EXERCISE IX.

Life.

Ver suave flores promit; et ignea
Succedit æstas; quam sequitur soror
Auctumnus, in brumam caduca;
Sic hominum quoque vita serpit!

EXERCISE X.

Ship.

Spumantis alas Oceani ratis
Invecta dorso pandit; et auream
Proram vel in cœlos superbè
Erigit haud metuens procellas.

EXERCISE XI.

Mountain Shepherd in a Storm.

Deprœliantes æquore fervido
Ventos, reducto montis in angulo,
Miratur, et gaudet procellam
Terribilem procul esse pastor.

EXERCISE XII.

Sleeping Statue.

Ecce! quàm somno facili reclinat
Marmor: Ah! gratis agitatur almè
Somniis: faustè! cave, nec beatum
Discute marmor.

EXERCISE XIII.

Old Woman.

Fulta nunc sceptro senii bacillo,
Vix pedem proferre gradu trementi
Jam potes; cani in niveâ capilli
Fronte vagantur.

EXERCISE XIV.

Thames.

Leni fluento, vix caput ad sacrum
Effusa, fluctus Oceani petit,
Per saxa, per sylvas, per urbes,
Divitiis onerata mundi.

EXERCISE XV.

Storm.

Diro tumultu concutitur nigrum
Cœlum; coruscant lurida fulmina
E nube; vos linguâ favete!
Voce Deus docet ipse magnâ.

EXERCISE XVI.

Calm.

Jam dissipantur nubila; flamine
Leni susurrat jam Notus; et die
Jam Phœbus effulget reducto
Splendidior, tenebris fugatis.

EXERCISE XVII.

Morning.

Invecta curru purpureo, rosas
Aurora cœlo spargit; et undique
Stellæ recedentes in umbras
Diffugiunt, veniente Divâ.

EXERCISE XVIII.

God.

Quis Deum dignâ referet camœnâ?
Imperî cujus spatium profundum
Terminat fines; patet et potestas
Hic et ubique.

EXERCISE XIX.

Friend.

Ibimus quò nos melior locorum
Nunc vocat sedes; ubi nulla mentem
Rixa detorquet; neque separemur
Morte vel ipsâ.

EXERCISE XX.

Wisdom.

Erroris expers, fraudis et inscia,
Vulgum, et protervas invidiæ minas,
Terrasque despectans jacentes,
Alta petit rapido volatu.

EXERCISE XXI.

Death.

O mentis expers Iapeti genus,
Mutanda nullo consilio est dies,
Quam fata supremam dederunt
In tenebris tumuli repôstis.

EXERCISE XXII.

Noon-day.

Sicca nunc urit ferus æstus arva;
Nunc vagi aurarum levium silescunt
Spiritus; nunc sol rapidus furentes
Exserit ignes.

EXERCISE XXIII.

The King.

1

Principis nostri decus atque laudes
Fama, per latos spatiata campos,
Evehat, quà sol oriens cadensque
Fræna revertit;

2

Quàque non notos populos, et urbes
Damnat æternis Helice pruinis;
Quàque ferventis cumulos arenæ
Dissipat Auster.

EXERCISE XXIV.

Royal Patronage of the Poet.

1

Ille crescentes veneratus annos
Vatis antiquum referentis ortum
Stirpis, et clarum genus, et potentum
Nomen avorum,

2

Contulit largâ numerosa dextrâ
Præmia, et pigræ stimulos juventæ
Addidit, sylvas et amica Musis
Otia præbens.

EXERCISE XXV.

Fountain.

1

Est mihi rivo vitreus perenni
Fons, arenosum prope littus; unde
Sæpe decedens sibi nauta rores
Haurit amicos.

2

Hunc ego vittâ redimitus albâ
Flore et æstivis veneror coronis,
Quum timent amnes et hiulca sævum
Arva Leonem.

EXERCISE XXVI.

Lyrist.

1

Audivi eburno pollice Juliam
Nervos moventem Threïciæ lyræ;
Atque arte jucundos magistrâ
Ad numeros strepitum cientem.

2

Et ora, vernis æmula floribus,
Solventem acutis vocibus ad modum,
Chordasque vocales decenter
Carminibus sociantem Etruscis.

EXERCISE XXVII.

Juventas.

1

Ecce quàm gressu facili Juventas
Sparsa fulgentes graditur capillos;
Vestibus cinctæ comitantur albis
Spesque Fidesque.

2

Heus ! procul, nigræ, procul este, curæ !
Flosculos largâ, pueri et puellæ,
Proprios afferte manu, chorisque
Cingite lætis.

EXERCISE XXVIII.

Dedication of a Laurel to Apollo.

1

Hanc tibi laurum viridi juventâ,
Phœbe, florentem cape dedicatam ;
Singulis annis, redeunte festâ
Luce, sonabo

2

Aureâ carmen citharâ, tuasque
Concinam laudes ; modo sis benignus ;
Corda sint semper mea plena sancto
Numine Phœbi.

EXERCISE XXIX.

Dedication of a Myrtle to Venus.

1

Conseram lætam tibi, Diva, myrtum,
Vancius qua se rosifer revolvit ;
Hanc mero et supplex niveo rigabo
Lacte quotannis.

2

Hanc et immixtæ pueris puellæ
Circum agent lætas pariter choreas ;
Teque primâ unam, simul et supremâ
Voce canent te.

EXERCISE XXX.

Health.

1

O Salus, regina bonique et almi,
Huc ades fautrix radiante vultu;
Aureâ tangas mea membra morbo
Languida virgâ.

2

Tu potes curas relevare mentis:
Tu vel in leto redimis caducum
Corpus; et vultum roseo decore
Pingere gaudes.

EXERCISE XXXI.

Music.

1

O, ut canoros quæro iterum modos!
O, ut melos me surripuit mihi!
Fugêre jam sensus; hiulco
Nescit abire animus labello.

2

Nec, si sciat, vult mitti; adeo bonâ et
Gratâ tenetur compede; nunc mihi
Ablata libertas, nec haustu
Elysiæ reparanda Lethes.

3

Si tale Siren, stirps Acheloïa,
Nautis canebat prætereuntibus,
Nil miror aversas carinas
Sponte cavas adiisse rupes.

EXERCISE XXXII.

Popularis Aura.

1

Nec nimis vulgo studeo placere,
Nec nimis duco malè displicere:
Nec favor prodest populi, sinistra
Nec nocet ira.

2

Cui placet virtus, stolido placere
Non potest vulgo. . Levis hæc Favonî
Improbis tantum malè comparatur
Moribus aura.

3

Vilis est qui se pretio loquacis
Æstumat vulgi. Mihi magnus uni
Ære virtutis, facili paratu,
Esse laboro.

EXERCISE XXXIII.

Friendship.

1

Non est amicus, quem magis alligat
Auri cupido, quàm studium tui:
Ridente fortunâ fidelis,
Perfidus illâ abeunte fiet.

2

Qui firmus adstat rebus in arduis,
Nunquamve vitâ deseret integrâ;
Si fractus illabatur orbis
Quem ferient fidei tenacem

3

Diræ ruinæ, lætus in optimis
Censeto amicis: hunc Pyladen tuum,
Amplecti Orestes, hunc Achillem
Automedon poteris putare.

EXERCISE XXXIV.

"My native land, good night!"

1

Vos lares dulces patriæ, valete!
Namque non possum miseras videre
Civium pugnas, gladiosque fratrum
Sanguine fœdos.

2

Vos tamen semper mea mens amabit,
Me licet Parcæ rapiant ad orbem,
Zona quem solis dirimit coruscâ
Torrida flammâ.

EXERCISE XXXV.

To Apollo.

1

Cynthii cultor nemoris, beatas
Voce qui nymphas citharâque mulces;
Phœbe, supremi Jovis et Deorum
Dulce levamen;

2

Si tibi semper mea mens ab annis
Serviit primis, neque dulce cordi
Est meo quidquam sine te, precanti
Annue faustus.

EXERCISE XXXVI.

Prayer for the return of a Prince.

1

O solve Ibero littore carbasa,
Et luctuosas, maxume principum,
Solare gèntes, et penates
Exhilara reditu paternos.

2

Qualis, reducto post tenebras die,
Sol nigriorem dissipat aera,
Junonis et regnum serenat,
Nubibus exsiliens fugatis:

3

Talis, reversus cardine ab Hespero,
Suppôsta septem regna trionibus
Solves ab obscuris tenebris,
Major avis, atavisque major.

EXERCISE XXXVII.

Epitaph on Maximilla.

1

Hic brevi gressum cohibe, viator;
Intus hic dormit mea Maximilla:
Gratiæ, Ludi, Veneres, in illâ,
Heu! perierunt.

2

Has dedit matri miseræ querelas;
Sponsa,—sed mortis,—capit hosce lectos;
Heu! decus lugete puellularum;
Plangite, Nymphæ!

EXERCISE XXXVIII.

To a Breeze..

1

Aura, quæ lucum viridem pererrans,
Nos levi blandè recreas susurro,
I, precor, velox pete Reginaldum
Albula pennis;

2

Tempera dulci rapidum calorem
Spiritu, circum volitans; nec æstum
Igneum lædat sine delicati
Corporis artus.

3

Sic ferum semper Boream sonanti
Æolus clausum teneat sub antro;
Sic tibi nunquam noceat furentis
Impetus Austri.

EXERCISE XXXIX.

Ad Villam Mergillinam.

1

O sacri custos scopuli marisque,
Villa, nympharum domus et propinquæ
Doridis, quondam decus una regum,
Deliciæque,

2

Nunc meis tantum requies Camœnis,
Urbis invisas quoties querelas
Et parùm fidos popularis auræ
Linquimus æstus!

3

Tu mihi solos nemorum recessus
Das, et hærentes per opaca lauros
Saxa; tu fontes Aganippidumque
Antra recludis.

EXERCISE XL.

Eurydice.

1

Sic saxa quondam Threïcium ferunt
Secuta vatem, dum per inhospitas
Rupes, ademptam dum per imas
Quæreret Eurydicen latebras.

2

Qui postquam Averni constitit ad fores,
Et ferreum cor leniit Æaci,
Flexitque suspensis bibentes
Auribus Eumenidas querelam,

3

Heu! legis amens immemor et sui,
Effudit altas frustra iterum preces,—
Frustra revertentem puellam
In tenebras iterum secutus.

4

Quam mox nivosâ flevit in Ismaro,
Flevit sub Hæmi rupibus horridis,
Seu Vesper inferret tenebras,
Sive diem veniens Eōūs.

5

Sed triste cepit plectra silentium,
Insanientum quum Ciconum furor
Sparsit cruenti membra vatis,
Stipitibus lacerata quernis.

6

Quum lingua, sacris faucibus eruta,
Futura mergis esca voracibus,
Ter visa converti sub Hebro,
Ter miseram Eurydicen vocavit.

7

Sed siste vanam, barbite, næniam!
Nunc in beatis Thracius insulis,
Exultat heros, et repertæ
Conjugis in gremio reclinat.

EXERCISE XLI.

The Goddess of the Chase.

1

Per feros saltus, per iniqua lustra,
Undique occultas agitans latebras,
Fertur, et sylvas variâ ferarum
Cæde cruentat;

2

Clara Latonæ soboles ; micantes
Huic comæ in nodum religantur auro ;
Pendet aurata ex humeris pharetra,
Pendet et arcus.

3

Circum eunt nymphæ simul ; illa cursu
Gaudet effusos agitare cervos :
Hanc juvat certis jaculis fugaces
Figere lyncas.

EXERCISE XLII.

True Happiness.

1

Ne tu beatum dixeris, optime
Sauli, superbo e limine civium
Qui prodit hinc atque hinc catervâ
Nobilium comitante cinctus.

2

Non si præaltis occupet Africæ
Quicquid feracis conditur horreis,
Gemmasque fulgentes, et auri
Possideat rutilos acervos.

3

Non ille felix, qui valet omnium
Causas latentes cernere, sidera
Servare doctus, atque in imas
Ingenio penetrare terras ;

4

Sed tu beatum jure vocaveris,
Qui mente purâ rite colit Deum,
Cui Numinis leges tenentur
Divitiis pretiosiores.

5

Non ille vulgi gaudet honoribus,
Sed carus illi Numinis est honor;
Quem morte defendit, paratus
Dedecorum genus omne ferre.

6

Quin et, relictis cœtibus urbium,
Mens sæpe in altum transvolat æthera,
Et Numinis magni, beata,
Colloquio fruitur beato.

7

Cœlestis ergo jam sapientiæ
Plenus, periclis altior omnibus,
Felix in Æterno quiescit,
Despiciens hominum tumultus.

EXERCISE XLIII.

Hymn to Aurora.

1

Ecce ab extremo veniens Eoo,
Roscidas Aurora refert quadrigas,
Et sinu lucem roseo micantem
Candida portat.

2

Ite, pallentes tenebræ, sub Orcum;
Ite, quæ totâ mihi nocte diros
Manium vultus, mihi dira semper
Somnia fertis.

3

Da, puer, vati citharam: ipse flores
Sparge, dum canto: bona Diva, salve!
Quæ tuo nigram radiante terram
Lumine lustras.

4

En! tibi suaves violas, crocumque!
En! odorati calathos amomi!
Surgit, et nostros tibi dulcis aura
Portat odores.

5

Deferat laudes utinam precesque,
Nostra quas supplex tibi Musa fundit,
Nunc pio sanctos benè docta Divos
Tollere cantu.

EXERCISE XLIV.

Hymn to Aurora, continued.

1

Quis tuam dignè celebrare lucem
Possit, O almi genetrix diei?
Quis tuum dicet decus, ante divas
Pulchrior omnes?

2

Quum genas cœlo roseas comamque
Auream promis, tibi fulva cedunt
Astra; decedit rutilante victa
Luna decore.

3

Te sine, æternâ jaceant sepulti
Nocte mortales; sine te, nec ullus
Sit color rebus, neque vita doctas
Culta per artes.

4

Tu gravem pigris oculis soporem
Excutis; (mortis sopor est imago)—
Evocans tectis sua quemque lætum ad
Munia mittis.

5

Exsilit stratis properans viator;
Ad jugum fortes redeunt juvenci;
Lætus ad silvas properat citato
Cum grege pastor.

EXERCISE XLV.

Neque semper arcum
Tendit Apollo.

1

Hoc est olorum, dulcius ut canant,
Giberte, semper, quos senium premit;
Illisque solis est senectus
Usque adeo melior juventâ.

2

Non hoc sacratis vatibus accidit,
Placere cantu Musa quibus dedit;
Oblita queis semper resistit
Consiliis melior senectus.

3

Nam quum ligatus sanguis hebet gelu,
Viresque languent, curâ aliâ illico
Mentes fatigantur, videntque
Ultima deteriora primis.

4

Natura cunctis, cuique suum, dedit
Tempus, quod ultra est non bene progredi;
Non semper annus floret idem,
Frondibus aut silüæ virescunt.

5

Lætis nitorem tristis hyems agris
Aufert procellis, atque potens gelu;
Nec se recognoscit sepulta, et
Sub nivibus stupet alma tellus.

EXERCISE XLVI.

The same continued.

1

Quid! qui ruenti non semel obstitit
Hosti, ut trementem deseruit vigor
Sedet, sacramento solutus,
Et pueris sua facta narrat.

2

Tu vis tamen me versibus immori,
Ævo reclamante, et juveni aptius
Intrare discrimen, meamque
Sollicitans hyemem fatigas.

3

Ne coge,—siquid forte nitescimus,—
Lucem in priorem spargere nubila;
Nunc fas, recusanti Camœnas,
Ponere sit mihi plectra et artem.

4

O vos, quibus vis et vigor integer,
Dum laudis intus fervet adhuc amor,
Perstate, certatimque læti,
Egregiis date vela factis.

5

Mollem senectam me deceat magis
Traducere intra Socraticam domum,
Dum cogito, quæ sit beatis
Post cineres animis voluptas.

EXERCISE XLVII.

Fame.

1

Garrulis formam cooperta linguis
Mille circumfusa oculisque mille,
Fama turritas volitat per urbes,
Præpete pennâ.

2

Bella, quæ matres metuunt, cruenta,
Bella, quæ innuptæ metuunt puellæ,
Narrat, infaustas aciesque dirâ
Cæde peremptas.

3

Narrat, ut navis rapidâ sub undâ
Mergitur, sævis agitata ventis;
Et mali quicquid veniat, sonoro
Nuntiat ore.

4

Improbè mendax! poterisne nunquam
Laude virtutem celebrare dignâ?
Sic erit gratum tibi semper uni
Damna referre?

EXERCISE XLVIII.

——Non si malè nunc, et olim
Sic erit.

1

Lugesne damnis, optime Marcio,
Oppressus? Istæ non lacrymæ decent:
Sis lætus, et curas inanes
Excute in Oceanum ferendas.

2

Virtute nunquam sic mala perpeti,
Rectove cultu doctus eras; neque
Aversa cedendo procella est,
Diffugiunt citiusve nubes.

3

Non dulce semper constituit Deus
Prudens, solutam solicitudine
Ducive vitam, sed benignus
Cuncta bonoque maloque mista.

4

Sic gemma, nigro lurida tegmine,
Attrita latè splendidius micat;
Sic herba, si frangas, honores
Mittit odoriferos in auras.

EXERCISE XLIX.

Ad arma!—Hor.

1

Nam quæ minacis fulgur acinaces,
Irasque ferri condidit improbo
Vagina neglectu, et feroces
Pigritiâ cicuravit enses?

2

Quis bullientem sanguinis impetum,
Quis mentis ignem et fulmina dexteræ,
Extinxit, et cordis ferocem
Sævitiam timor occupavit?

3

Audete Martis consilium sequi,
Felicitatis commoda publicæ
Siquos juvabit, et fugatis
Temperies reparata nimbis.

4

Pax empta bellis advenit, et salus
Est tota in armis publica: vulneri
Sic admovet ferrum Machaon,
Cui facilis malè dextra parcit.

EXERCISE L.

The same continued.

1

Assumite ensem, et pectoris æs triplex ;
Et suscitatum mascula provocet
Virtus vigorem ; nunc et acrem
In segetem rigeat juventus.

2

Fastigiatas demite vertice
Turres comarum ; casside pulchrius
Crines sub æratâ vigebunt,
Quam radient fluido sub auro.

3

Emenda ferro pax ; animis eget
Manuque ; vires promite fervidas :
Ad arma ! cessantes, ad arma !
Certa salus posita est in armis.

EXERCISE LI.

Φθείρουσιν ἤθη χρησθ' ὁμιλίαι κακαί.

1

Vive, Prudenti, tibi ; pluriumque
Frater evita et socius vocari ;
Antequam quæras populo videri,
Disce latere.

2

Sæpe qui mores tulit innocentes
In forum, mores retulit nocentes
In domum ; quivis vitii propinquo
Instillat amorem.

3

Quisquis ad flammas steterit, calescet,
Quamlibet nolit; pariter rigebit,
Quisquis algenti dederit Decembri
Membra ligare.

4

Mollis emollit socius; dolosus
Ad dolum ducit; rudis efferatos
Imprimit mores; docet invidere
Invidus alter.

5

Sic pecus morbum pecori frequenter
Allinit; carbo socium profanat
Igne carbonem. Sua quisque amico
Crimina suadet.

6

Vive, sed tecum; populumque vita;
Ille securus placidusque vivit,
Qui sibi soli, vice plurimorum,
Sufficit uni.

EXERCISE LII.

Ἴσχε νόον.—THEOGNIS.

1

Iram memento frangere. Sanguinis
Siti laborat; seque per arduas
Dum volvit obstantum ruinas,
Ira suam trahit ipsa cladem.

2

Mutat colorem frontis; amabiles
Vultus pyropos, lumina funerat.
Collum retorquet; labra mordet;
Membra quatit; tumidumque pectus

3

Pulsat lacertis: brachia disjicit;
Urit medullas, viscera destruit,
Rumpitque venas, et tremoris
Supplicio populatur artus.

4

Siquem feroci videris impetu
Jactare flammas, aut hominem nega,
Aut crede vesanum; furenti
Ira rapit malesana mentem.

5

Hinc cæca in urbes provolat; eruit
Stantem perenni marmore Colchida
Turresque Persarum; et Canopi
Regna gravi populatur igne.

EXERCISE LIII.

The same continued.

1

Quid nunc venenum, mutua funera
Fratrumque dicam? Quid malè sontium
Exempla Thebarum, draconis
Progeniem; segetemque Cadmi

2

Stantem sub æris pondere Martii;
Imisque junctum Manibus Ilion;
Et prorsus eversum Saguntum;
Fumiferam cinerumque pondus

3

Immane Romam contumulantium,
Nerone læto? Scilicet omnia
Involvit in dirâ ruinâ, et
Implacidis populatur undis.

4

Tu sceptra cordis, tu violentiæ
Ne cede fasces pectoris integri;
Sed lege constantique fræno,
Ipse tuæ dominare menti.

5

Nam jura cordis si semel eripit,
Extinguit acrem judicii diem,
Nomenque vitamque in periclum
Præcipitemque trahit ruinam.

EXERCISE LIV.

Levius fit patientiâ
Quicquid corrigere est nefas.—Hor.

1

Parce lamentis; levius silentem
Dura sors transit. Mala sustinendo,
Ipsa se frangunt; teriturque duro
Robore robur.

2

Quod grave est fiet levius ferendo:
Excutis morbum? Gravior redibit:
Sustines? Magnam cecidisse partem
Crede ferendo.

3

Impetum navis metuens procellæ,
Huc et huc fluctu rapitur; marinas
Ridet ad pugnas scopulus, nec iræ
Cedit aquarum.

4

Quod malum credis, facis ipse; pone
Mentis errores; et opinioni
Deme; jam nullo vitio laborat
Sortis amator.

EXERCISE LV.

The same continued.

1

Fingimus rebus mala. Somnianti
Bulliunt, pugnant, cruciantur, ardent,
Seque per cædem rapiunt, cruenti
Præda furoris.

2

Mox ubi somni vigil ales umbras
Excutit, belli cadit omnis ira;
Quique pugnabat, sua lætus ipse
Somnia ridet.

3

Hoc fuit mentis vitium, malorum
Phasma fingentis: patimur quod ipsi
Fingimus: non sunt mala; sed timentes
Esse putamus.

4

Quisque se lædit: mala quòd putentur,
Exterum est rebus; meliora dices,
Si juves mentem, Superûmque credas
Esse favores.

EXERCISE LVI.

Eheu! fugaces, Postume, Postume,
Labuntur anni.—Hor.

1

Heu! quàm dolosâ ludimur aleâ,
Umbrisque mentem pascimus aufugis,
Dum staminis spem longioris
Solicito meditamur æstu:

2

Excede porrò sæcula Nestoris,
Et cana vatis tempora Persici,
Annosque Tithoni, nivesque
Exsupera Pyliæ senectæ.

3

Tecum voluptas, hospita pectoris,
Jurata, puro stamina protrahat
Auro laborata, et serenis
Ad genium famuletur astris;

4

Sed quando amico lustra Favonio
Producta current, et Charitum joci,
Risusque te fallent soluti,
Vive memor fugientis horæ.

EXERCISE LVII.

The same continued.

1

Imus. Futuri conscia funeris,
Prætervolantes hora rapax dies
Consumit, et leto imminente,
Vita suam premit ipsa vitam.

2

I; longa felix sæcula protrahe,
Semper futuri temporis helluo;
Annisque millenis beata
Mille iterum superadde lustra:

3

Censebis albi sæcula flosculi,
Lustrum rosarum, quas veniens dies
In luce fulgenti superbas
Obstupuit,—medio peremptas

4

In calle vidit. Perpetuis nihil
Mensuret annis, quod vorat unicum
Fatale momentum, et supremum
Ad tumulum brevis hora rapit.

EXERCISE LVIII.

Οὗτοι ἀπόβλητ' ἐστὶ θεῶν ἐρικυδέα δῶρα.—Hom.

1

Parce fortunam lacerare, Varre;
Si quod e largâ dedit ante dextrâ,
Rursus infidâ rapiat, nihilque
Proroget ævum.

2

Inde laudanda est magis, unde damnas,
Omnibus debet: rapit huic, ut illi
Porrigat partem; pia, liberalis,
Optima mater.

3

Sic dat, ut semper dare possit; uni
Larga, dum summâ nive canet ætas:
Parca, dum primo viguit venusta
Flore juventas;

4

Alteri primâ in nive liberalis,
Parca in extremâ. Quod heri negabat,
Crastino servat. Tibi destinata
Adfluet hora.

5

Abstine probris, nocitura quando
Vota non audit Dea; largitatis
Est genus quoddam, nocitura amico
Vota negare.

EXERCISE LIX.

Ἔμαθον ἐν οἷς εἰμὶ αὐτάρκης εἶναι.—Ep. ad Philip.

1

Justas quotannis cum prece plurimâ,
Paulli, Supremo, quicquid erit, Deo,
Seu donet hoc, quicquid rogâris,
Sive quid exiguis ademit,

2

Grates memento reddere; quum tibi
Almos odores ver parit aureum,
Quum falce fragrantes aduncâ
Flava Ceres geminat maniplos.

3

Grates memento reddere, grandius
Mulctrum petulca ut complet ab ubere
Capella distento, gemellis
Rupe sub aeriâ relictis.

4

Et quum beatæ vitis Iacchichum
Seu grando honorem; seu ferus Africus,
Sidusve fœdavit Leonis;
Quum segetem sterilis momordit

5

Robigo, an arctum bruma severior
Ovile fecit; tunc quoque reddere
Tu gratias lætus memento:
Præteritus melior recessit

6

Auctumnus; alter deinde benignior
Forsan sequetur, plenaque Copia
Tres rursus effundet per annos,
Quod tibi sat fuerit, superque.

EXERCISE LX.

Adventantis senectutis descriptio.

1

Ruga nunc vultus arat, et severam
Contrahit frontem; capitisque nigri
Albicant crines; tremulo recedit
Corpore virtus.

2

Nec tamen cordi data vis malorum
Ponderi cedit: neque turbulentis
Fluctuat rebus, neque prosperis mens
Æstuat undis.

3

Namque seu dulci recreat sopore
Alma nox terras, oriensve clausum
Sol polum a toto reserat fugatis
Orbe tenebris;

4

Me Deus dextrâ fovet occupatos
Et mihi nervos, mihi membra, et omnes
Corporis sensus glacie resolvit,
Nocte dieque.

5

Alme Sol, ergo, nova lux, et ingens
Flamma concordi comitata amore,
Perge languentes placido medullas
Igne fovere.

6

Perge, ne magnum tibi amoris æstum
Ulla vis unquam minuat; sed usque
Crescat, et nervos graciles et ossa
Torreat usque;

7

Vitæ ut extremâ fugientis horâ,
Ocyor densis mea mens soluta
Corporis vinclis, duplices ad astra
Explicet alas.

EXERCISE LXI.

His saltem accumulem donis.

1

Indictus ergo carminibus queas
Exire nostris? Nec sibi paginæ,
Roberte, præscribent amatum
Nomen et emeritos honores?

2

Non cura solers hoc meruit, rude
Quâ pectus annis in teneris meum
Tu voce formâsti, peritus
In studiis utriusque linguæ.

3

Non plus marinæ semiviro deæ
Proles magistro debuit, Orpheï
  Majore nec Linus canori
    Ingenium studio refinxit;

4

Quamvis potentes edocuit modos
Curvare fluctus in caput; et cavis
  Audita truncis, et ferarum
    Carmina quæ traherent cohortem.

5

Donare gratos non cyathos ego
Gemmasve possum, queis opifex manu
  Aurum coronavit peritâ;
    Non Arabum pretiosa thura.

6

O ex amicis optime, maxime
Pastor, capillos hâc tibi simplici,
  Pimplēa quam texit, coronâ
    Cinge, et adhuc memor esto nostrî.

EXERCISE LXII.

To Diana.

1

Casta Latonæ soboles Jovisque,
Quæ, pharetratis comitata nymphis,
Cynthium collem peragras nigramque
    Silvam Erymanthi,

2

Marcius, linguæ decus utriusque,
Doctus errantes agitare cervos,
Hanc tibi villâ mediâ locatam
Dedicat ulmum,

3

Unde, veloci domiti sagittâ,
Pendeant lynces, timidique damæ,
Atque vivacis tibi consecrata
Cornua cervi.

EXERCISE LXIII.

Ὑγίεια.

1

Diva, funestis inimica morbis,
Cui vigor mentis, solidæque vires,
Et joci dulces, animique semper
Gaudia cordi;

2

Te voluptatis canimus parentem,
Candidam blandæ Veneris sodalem,
Unicum vitæ decus, et malorum
Dulce levamen;

3

Quam colunt sanctè juvenes senesque;
Quam sibi cuncti cupiunt suisque;
Nam simul cœtus hominum caducos
Alma revisis,

4

Ilicet morbi fugiunt protervi;
Febris occumbit truculenta; dirus
Pallor occumbit; fera Mors in altum
Exulat Orcum;

5

Sed domus florent pueris, senesque
Induunt sortem viridis juventæ,
Et Venus terram colit, et Lyæus,
Et bonus Hymen.

6

O quies rerum! O hominum benigna
Mater! O cunctis veneranda! namque
Quid potest gratum sine te, quid ulli
Dulce videri?

7

Huc ades, nostrum miserans laborem,
Sive te cœli tenet aula, sive
Insulis molles choreas beatis
Læta frequentas.

8

Huc ades tandem, bona Diva, et artus
Languidos aurâ refove salubri,
Ne meam tabes edat immerentis
Nigra juventam.

EXERCISE LXIV.

Peace o'er the World her olive wand extend.

1

Alma Pax, tandem tenues per auras
Explicas alas, veniens Olympo,
Fers et optatam requiem laborum
Aurea terris.

2

Huc ades, nostras miserata cædes;
Queis adhuc agri recalent cruenti,
Queis rubent undæ fluviorum, et alti
Marmora ponti.

3

Cuncta sed nunc, te redeunte, rident;
Cuncta mutantur, viret ipsa tellus,
Enitent fontes, fluvii, lacusque,
Et salis undæ.

4

Tu velut Phœbus rutilus refulges,
Et diem reddis, tenebris fugatis;
En! niger belli metus hinc refugit,
Luctus et omnis.

5

Non sponsa lugens revocat maritum,
Signa dum Martis sequitur: nec ulla
Filium mater mediis in armis
Mœret ademptum.

6

Nave mercator liquidas per undas
Æquoris currit, gravis ære et auro :
Nec ferus prædo tamen ullus instat
Obvius illi.

7

Nunc capit tutus requiem colonus
Paupere in tecto, patrios et agros
Vomere exercet; fruiturque pace
Pacis amator.

8

Militum jamjam clypeos et enses
Occupat turpis situs; at renidet
Trita falx usu proprio; politum
Splendet aratrum.

EXERCISE LXV.

Ad testudinem.

1

Sonora buxi filia sutilis,
Pendebis altâ, barbite, populo;
Dum ridet aer, et supinas
Sollicitat levis aura frondes.

2

Te sibilantis lenior halitus
Perflabit Euri : me juvet interim
Collum reclinâsse, et virenti
Sic temerè jacuisse ripâ.

3

Ah! quæ serenum nubila contegunt
Repente cælum! Qui sonus imbrium!
Surgamus: ah! semper fugaci
Gaudia præteritura passu!

EXERCISE LXVI.

Hoc est
Vivere bis.—MARTIAL.

1

Quæ tegit canas modò bruma valles,
Sole vicinos jaculante montes,
Deteget rursus. Tibi, quum nivosæ
Bruma senectæ

2

Incidit seris capiti pruinis,
Decidet nunquam. Cita fugit Æstas;
Fugit Auctumnus; fugient propinqui
Tempora Veris.

3

Sed tibi frigus capitique cani
Semper hærebunt: neque multa nardus,
Nec parùm gratum repetita dement
Serta colorem.

4

Sola quem nobis dederat juventus
Sola te nobis rapiet senectus.
Sed potes, Publi, geminare magnâ
Sæcula famâ.

5

Quem sui cives gemuêre raptum
Hic diu vixit. Sibi quisque Famam
Scribat hæredem : rapiunt avaræ
Cætera Lunæ.

EXERCISE LXVII.

Urbani laudes.

1

Urbane ! regum maxime, maxime
Urbane vatum ! Pegaseus tibi
Temo, volaturusque longè
Regna super populosque currus

2

Jamdudum apud me est. Eripe te solo;
Obliviosis eripe nubibus
Nomenque laudesque. O Deorum
Concilio, patrioque quondam

3

Promisse cœlo ? Te super inclyta
Terrarum, et altas Acroceraunia
Egressa nubes; te superni
Colla super nemorosa Pindi

4

Extollere altè, non sine numine,
Conabor: ibis, sub pedibus pigras
Urbes relicturusque gentes,
Attonitæ novus hospes auræ.

5

Hâc, unde vasti littora Nereï,
Rivosque, et agros, et juga, desuper
Arcesque mirari, et natantes
Oceano numerare terras,

6

Coram licebit. Nunc tibi barbarus
Circum supinis collibus annuit
Hæmus, salutatâque longè
Attremit Acrocorinthus aulâ.

7

Ter pronus Othrys, ter trepidæ latus
Subsedit Ossæ; ter Rhodope nives,
Sacrasque submisêre lauros
Emathii capita alta Pindi;

8

Sacerque Phœbo Cynthus, et aviæ
Dumeta Cirrhæ. Lauriferis tibi
Thyrsis coronatus Cithæron,
Et patulâ nemorosa pinu

9

Pangæa, gaudent brachia frondium
Longè tetendisse, et procul obvios
Currus adorare, et volanti
Ardua supposuisse terga.

EXERCISE LXVIII.

The same continued.

1

Hinc ire pompas, hinc tibi præpetes
Centum superbis ire curulibus,
  Urbane, Musas; hinc aperto
    Ire sines tua facta cælo!

2

Auditis? An me ludit amabilis
Pomparum imago? Nunc videor pios
  Audire plausus, et frementes
    Cæruleum per inane turmas.

3

Invecta terras ter super et mare,
Respondit Echo: ter lituis procul,
  Sacræ ter Urbanum Camœnæ
    Pindaricis cecinêre plectris.

4

Audivit ingens Pontus, et insulas
Erexit omnes: ilicet Africæ
  Plausêre, et Europes et unà
    Americes Asiæque regna.

5

Lætæque tandem: Currite, sæcula!
Dixêre Musæ, currite, candidis
  Horæ quadrigis: ite! magni
    Sæcula deproperate menses!

6

Dixêre Musæ: protinus aurea
Risêre longùm sæcula, sæcula
Auro laborata, et recuso
In pretium emicuêre vultu.

EXERCISE LXIX.

Currit enim ferox
Ætas.—Hor.

1

Vive jucundæ metuens juventæ,
Crispe Lævini! Fugiunt avaræ
Mensium Lunæ, nimiùmque volvi
Lubricus æther.

2

Tu licet, multo pretiosus auro,
Gemmeâ vestem moderêre zonâ,
Et super collo Tyrias adornet
Fibula lanas:

3

Jure Phœnissis vaga pluma pennis
Stare labenti dubitat galero;
Jure, quo splendes, timidum refigi
Palluit aurum.

4

Quod tibi largâ dedit Hora dextrâ,
Hora furaci rapiet sinistrâ,
More fallentis tenerum jocosè
Matris alumnum.

5

Mobiles rerum dubiæque sortes
Regna mortalis tenuere vitæ;
Sedulus metæ properat fugacis
Impetus ævi.

EXERCISE LXX.

Urbani laudes.

1

Pone surgentes super orbe curas,
Magne pacati moderator orbis!
Mitte Threïssas calidâ phalangas
Fervere rixâ.

2

Mugiant cano, sine, bella ponto,
Dum procellosos struit aura montes,
Dum gemunt rupes, refugâque Calpe
Vapulat undâ.

3

Regna Rhæteis resonant triumphis;
Rumor auratâ volitans quadrigâ
Grata demittit bene feriatis
Omina terris.

4

Occidit justæ datus hostis iræ;
Hostis, hibernæ moderator oræ,
Quà coronatis sinuantur altæ
Turribus Alpes.

5

Ire captivo patiens fluento,
Ister assertâ famulatur undâ;
Corripit fluctus, Rhodanusque ripâ
Servit utrâque.

6

Te, genu nixi, didicêre Medi;
Maurus extentum tibi laxat arcum:
Te Seres horrent, humerisque Parthi
Scuta reponunt.

7

Fingit effuso tibi nomen auro
Indus, argutè resonante lymphâ;
Te sonant septem vaga fabulosi
Ostia Nili.

END OF PART THE FIRST.

PART THE SECOND.

EXERCISE I.

1

Siquis, in tantis hominum procellis
Inter et curas hominum, et labores,
Gaudet, assertor fidei, decoram
Degere vitam;

2

Hujus exemplum sequar expeditus;
Liber et fixæ referam quieti
Nunc meos annos melioris ævi,
Cultor honesti.

3

Cautius posthac mea cymba, pulsa
Inter et Syrtes scopulosque, cursum
Solvet, et nullos temerè insequetur
Æquoris æstus.

4

Profuit diros adiisse fluctus,
Et feram insani rabiem Charybdis;
Gratior tandem foret ut voluptas
Visere portum.

5

Sentiunt fessi meliùs quietem
Integram; Pæan, pluviis relictis,
Redditur mitis; croceumque lumen
Fundit Apollo.

EXERCISE II.

1

Ergo minaci credulus Africo,
Tumultuosi marmora Nereï
Pugnasque ventorum, et tyrannos
Æoliæ superabis aulæ?

2

Nec te marinæ dira licentiæ
Imago terret? Nec timor æquoris
Enavigandi? Nec protervis
Ille frequens equitatus Euris?

3

Sed contumaces Æoliæ minas,
Iramque ponti spernis, et obvios
Mundi furores irretortâ
Fronte subis, similique vultu,

4

Quo feriantis mœnia Tusculi,
Aut otiosi jugera Tiburis
Perambulaturus, subibas
Egelidos Anienis amnes?

5

Hoc ore motæ dira protervia
Undæ subsidet. Nunc video procul
Ad littus acclinata somno
Æquora decubuisse leni;

6

Et dormientis flamina Nereï
Spirare pacem. Scinde tenacium
Funium morsus; perge classem
Velivolis animare ventis.

EXERCISE III.

1

Quisquis Ægei maris inquietos
Navigat fluctus, fragilive pinu
Adriam incertam per iniqua venti
Prælia tentat;

2

Si repentino fluat imbre cœlum,
Aut procellosos agat unda montes,
Nave damnatâ, placidæ precatur
Otia pacis.

3

Quisquis aut Medos stimulat pharetrâ,
Aut movet bello furiosa Thracum
Agmina, et forti renovat Gradivo
Prælia Achillis;

4

Otium tandem rogat; et, solutus
Marte, tranquillos sine nube soles
Optat, et miles sibi duxque parvo
Vivere tecto.

5

Otium sed nec pretio micantis
Venit argenti, neque blandiori
Gangis allapsu, neque bracteati
Fluctibus Hermi.

6

Nulla vis auro est, ut iniquiores
Arceat mentis miseræ tumultus,
Quæque discurrunt pretiosa circum
Atria curas.

EXERCISE IV.

1

Otium quivis sibi gignit ipsi,
Qui potest parvo satiare avarum
Mentis ardorem, tenuique mensâ
Ducere vitam.

2

Huic leves somnos nec avarus aufert
Ambitus rerum, neque turpis auri
Pompa, nec mentem rotat inquieto
Turbine cura.

3

Ergo cur vanis sequimur fugacem
Gloriam votis, spatioque parvo
Magna metamur? Fugit incitati
Impetus ævi;

4

Lætus in præsens animo, futura
Mitte sectari. Nimium minaci
Sorte torqueri gravis inquieti est
Pectoris æstus.

EXERCISE V.

1

Læta sors ridet? Cave, blandienti
Occupet risu; cave flere sortis
Tristis ad fletum; stabilemque firma
Pectoris arcem.

2

Dives est, non cui Phrygiæ laborant
Mille acus; non cui riget invidenda
Porticus marmor, Siculæve flavent
Messis aristæ.

3

Dives est, qui nil cupit; huic deesse
Laus potest. Illi malè destinabit
Ira discrimen. Miser esse nescit,
Qui nihil ambit.

EXERCISE VI.

1

O quæ, residens populeâ comâ,
Cœlique gratis ebria lacrymis,
  Et voce te, felix cicada,
    Egelidam recreasque sylvam,

2

Post brumam inertem, dum nimium brevis
Æstas levi se præcipitat rotâ,
  O concitas Phœbi quadrigas
    Carmine dulcisono retarda.

3

Ut quisque gratus se tulerit dies,
Sic quisque transit; nulla quidem fuit
  Sat longa mortali voluptas:
    Sæpe dolor manet, heu! perennis.

EXERCISE VII.

1

O Moyla, cessent murmura gurgitis,
Ventique servent alta silentia,
  Dum noctis enarrat dolorem
    Liria stelliferis sub umbris.

2

'Quando solutis emoriens cycnus
'Effundet alis funereum melos?
  'Quandoque, campanâ sonante,
    'Hanc animam Superi vocabunt?

3

'Longos per annos, fluctibus in tuis,
'O Moyla, vitam flebiliter traho;
'Et sacra lux ortum moratur,
'Et jacet in tenebris Hibernus.

4

'Quando, sub almo lumine Phosphori,
'Nostrum beabunt Pax et Amor solum?
'Quandoque, campanâ sonante,
'Hanc animam Superi vocabunt?'

EXERCISE VIII.

1

Quum meam, nullis humeros onustus
Sarcinis tecum patriam reviso
Lætus, et parvo mihi cunque dives
Carmina fundo,

2

Tu siles mœstùm; tibi Cura Musas
Demit, et multi grave pondus auri;
Quæque te quondam malefida rerum
Turba relinquet.

3

Dives est qui nil habet; illa tantùm,
Quæ potest certâ retinere dextrâ:
Seque fert secum, vaga quò migrare
Jussit egestas.

4

Quid mihi, qui nil cupiam, deesse
Possit? Umbrosi placet una Pindi
Vallis: O sacrum nemus! O jocosæ
Rura Camœnæ!

5

Quæ meos passus via cunque quæret,
Delphici colles, mea regna! mecum
Itis, et fessum comitante circum-
sistitis umbrâ.

6

Me Gothus sævis religet catenis;
Me Scythes captum rapiat; solutâ,
Mente vobiscum potero tremendos
Visere reges.

EXERCISE IX.

To a Violet.

1

Aurora veris! punicei recens
Regina campi! Cinge precor meæ
Frontem puellæ: Cur sub auro
Parvula sic gravibusque gemmis,

2

Vel sub prementis sidere purpuræ,
Laboret! Almis hanc potius decet
Sertis coronari capillos,
Flore piam referente mentem.

EXERCISE X.

To a Rose.

1

Siderum vultus imitata sacros !
Cur lates dudum, Rosa? Delicatum
Effer e terrâ caput, O tepentis
Filia cæli !

2

Nunc tibi nubes fugiunt aquosæ,
Quas fugant albis Zephyri quadrigis,
Nunc tibi mollit Boream jocosi
Aura Favonî.

EXERCISE XI.

To a Breeze.

1

Aura, quam veris tepor et serenâ
Thraciæ vectant animæ quadrigâ,
Huc ades, quà te vocat hospitali
Populus umbrâ.

2

Hic tibi liber Zephyrus pererret
Brachia et frondes; vagus hic supinas
Increpet sylvas, facilique vexet
Gramina ludo.

3

Dum per apricos revoluta flores,
Vitreæ somnos fuga suadet undæ,
Meque suspensumque comante perfla
Barbiton ulmo.

4

Sic tibi cælum lepidoque soles
Rideant vultu; pede sic liquenti
Ros tibi manet, tacitâque semper
Pendeat herbâ.
